SUMMARY

Final-year Computer Science student CGPA 3.89/4.00 with rigorous training in Advanced Python (NUTECH). Emerging researcher with experience collaborating on academic papers regarding AI and operational efficiency. Seeking to leverage strong technical skills in Python, IoT, and data science to contribute to innovative privacy and security solutions.

WORK EXPERIENCE

PythonDevelopmentTrainee (Summer of Code) **July 2024 – Oct 2024**

- Completed an intensive 3-month tenure focusing on Advance Python Programming & Applications, covering complex syntax and backend logic.
- Achieved an A+ Grade (Registration No. I-24-892739), demonstrating superior proficiency in coding assignments and practical project implementation.

EDUCATION

Bachelor ofScience in Computer Science (BSCS) **Sep 2022 – June 2026**
Thal University, Bhakkar
Academic Standing: CGPA 3.89 / 4.00 (Aggregate: 85%)
Status: Final Year Undergraduate (Top-tier academic performance)

PROJECT

- **Automated IELTS Essay Scoring Using AI & LLMs**

Engineered a comprehensive pipeline to automate the assessment of IELTS writing tasks, addressing the latency and inconsistency of manual grading. By utilizing Large Language Models (LLMs) and NLP techniques on a dataset of 1,435 essays, the system delivers human-aligned band scores and detailed feedback based on official IELTS rubrics. Research is currently ongoing, with a paper scheduled for imminent publication.

- **Impact of Pre-processing on Machine Learning Performance**

Leading an empirical analysis to evaluate the efficacy of data pre-processing techniques on real-world datasets. The project focuses on benchmarking model performance before and after implementing advanced cleaning protocols, including categorical encoding, statistical imputation, and feature scaling. Early results highlight a critical correlation between data hygiene and the predictive accuracy of machine learning algorithms.

- **Transaction Data Analysis (NUTECH ISLAMABAD)**

Worked on analyzingbank transaction datasetsto identify spending patterns, manage financial records, and detect irregularities. Applied Python libraries such as Pandas, NumPy, and Matplotlib for data cleaning, processing, and visualization, gaining practical experience in financial data analysis.

- **Intelligent Street Light Control System**

Developed a hardware-based automation system to optimize power consumption in public lighting. By utilizing light-dependent sensing and relay-based control logic, the system eliminates redundant energy usage by automatically adjusting state based on real-time environmental visibility. Served as a foundational exploration into embedded systems and smart grid technology.

Awards & Achivements

- **HonhaarScholarships Awardee**

  Thal University Bhakkar
  AwardedunderthePunjab Higher Education Commission (PHEC) & G overnment of Pakistan

- **Prime Minister's Laptop Scheme Awardee**

  ThalUniversity Bhakkar
  Awarded a laptop under the Prime Minister's Youth Laptop Scheme (PMYLS) Phase IV. Empowering students with digital tools to support learning, research, and innovation.

CERTIFICATES

1.InformationTechnology Specialist: Python

Issued by Pearson VUE/Certiport
Issued: Jan 2025 | Credential ID: UFFx-s4NA
Awarded for demonstrating professional-level proficiency in Python syntax, data structures, and algorithmic logic.

2. Advanced Python Programming & Applications

National University of Technology(NUTECH)/NAVTTC
Session: Jul 2024 – Oct 2024
Grade: A+ (Excellent)
Completed a rigorous 3-month training under the Prime Minister's Youth Skills Development Program, focusing on advanced application development.

3. Introduction to Databases

Issued byMeta(via Coursera)
Issued: April 2024 | Credential ID: DK8NR74T64V3

PUBLICATION

SyedMuaviz urRehman, et al. (March 2026)**.** Leveraging Artificial Intelligence in Business Management: Optimizing Decision-Making and Operational Efficiency through Advanced Computer Science Techniques**. Journal of Management Science Research Review.**
DOI: 10.5281/zenodo.18829960

EXTRACURRICULAR ACTIVITIES

Technical Event Coordinator
Thal University IT Club **Nov 2025 – Current**

- Facilitatedthe organization of technicalworkshops and seminars, focusing on emerging technologies in Data Science and Artificial Intelligence.
- Collaborated with faculty and student peers to foster a knowledge-sharing environment, bridgingthe gap between academic theory and practical application.

Creative Le ad & Graphic Designer Green Thal & Environment Protection Society **Mar 2024 – Current**

- Designed compellingvisualassetsfor environmental advocacycampaigns, effectively promoting tree plantation drives and sustainability initiatives.
- Leveraged visual storytelling to enhance community engagement and raise awareness regarding climate protection strategies.
